Dear Harry,

I am enclosing a personal letter for transmittal to Archie with a copy for your information. We do appreciate his worry but I am afraid that the situation may be a little more critical from his end than it is from ours. We will try to keep you informed of the results of this meeting as we get them over here.

As you may have heard, I officially renounce my association with OSI on the 4th of June. This is of course with some reluctance because I have enjoyed it very much. However, I will keep in close touch and hope that organizational lines will not establish any barriers.

How closely are you in touch with the special liaison activities of [REDACTED]? At the present time it is not clear what relationships the DD/R will have with the [REDACTED] technical community but it may be desirable to have you or some of the others maintain some of this technical liaison in the same manner as you are now doing in connection with certain TSD projects. Any ideas from you in a personal letter to me would be appreciated.

With best regards.

Sincerely yours,

Signed Herbert Scoville, Jr.,
